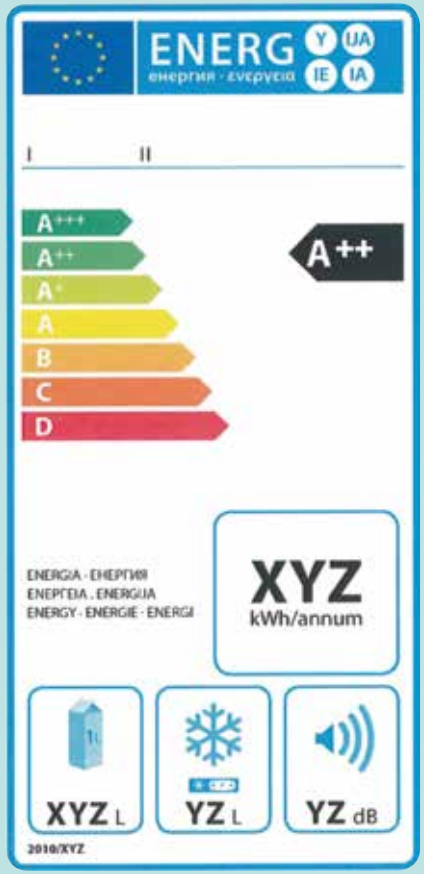
Energy efficiency

All coolers, which can also be operated with a 230 Volt connection carry the proper EU Energy Label. Most items are rated A++



Testmarks

All products undergo systematic testing by major test institutes. The same tests are run in our internal laboratories alongside mass production.

Important note concerning “dimensions”:

Measurement “L” specifies the shelf length required to store the given product.

For your promotion:

All pictures available on DVD.

F38: Height-adjustable grid trays and door compartments

F16:
Three Removable shelves inside the cooler.
Without shelves: room for large beverage bottles

MINI-FRIDGES: ICE-COLD ROOMMATES

While the familiar household refrigerator has to stay in the kitchen, these mini-fridges are at home in the living room, bedroom or guest rooms, as well as the home gym or office. The stylish indoor coolers by MOBICOOL deliver active refrigeration precisely to those locations where you spend most of your time. They're extremely functional and have a well thought-out design that blends perfectly with modern interiors.

ACTIVE COOLING?
START NOW AT A GREAT PRICE!

The MOBICOOL U/V-series gives leisure fans convincing arguments for finally investing in a thermoelectric cooler. They offer capacities of about 25 or 29 litres, room to stand 2-litre bottles in an upright position and cooling performance up to 18 °C below ambient temperatures — all at very competitive prices. The coolers come in bright cobalt blue or a crayon-box colour palette and the new U26S even offers an exterior textile skin. All U-models feature 12 Volt operation, while the V26 AC/DC and V30 AC/DC can additionally operate from the mains (12/230 Volt).

IT'S A MAN'S WORLD, RIGHT?

At first you might think it's a man's world based on some of the distinctive design elements found in the G-series. The air scoop motif is reminiscent of a radiator grille and the flat lid has the look and feel of a motor bonnet. The "bottle flap" integrated in the lid of the G35 even resembles a petrol cap. But at least when it comes to the trendy colour scheme, there's one thing the sexes agree on: Curry as a strong accent colour, combined with classic grey-white, also makes a woman's heart beat faster. And when "she" discovers this colour combo on the new G26S with its exterior textile skin, shoulder strap and extra pockets, "he" won't easily have his way when it comes to selecting a different cooler...

Except for the G35, all of the G-series coolers are available as DC and as AC/DC models. The G35 can also be used for heating, has skate rollers for trouble-free transport and is available exclusively as an AC/DC version.

COOLERS WITH XXL CAPACITIES

If you want to spend an entire day at the beach with family or friends, you're going to need a little more storage space for snacks and soft drinks. Here alone, MOBICOOL offers six coolers with capacities from 38 – 48 litres. The W48 can actually "swallow" an entire beverage crate. The visual highlight among the five coolers is the Q40 with its indestructible aluminium housing, which only gets more beautiful with signs of use.

SHOP AND CHILL

Still rushing from the supermarket to a boutique or hair salon? No problem at all, these thermoelectric soft coolers (12 Volt DC) keep fresh produce at the right temperature while you're out and about. These coolers are available in subdued dark blue or radiant eye-catching colours. With capacities from 25 to 32 litres, they offer plenty of room for daily shopping, have extra pockets for your wallet and keys, and have adjustable carrying straps that make transport easy. Detachable shoulder straps even make it possible to carry the MB25 and MB32 over the shoulder.

The possible uses for all MOBICOOL coolers can be easily expanded or customized through the use of selected electronic accessories. All of our accessory solutions have proven themselves over many years of use with our product line-up.

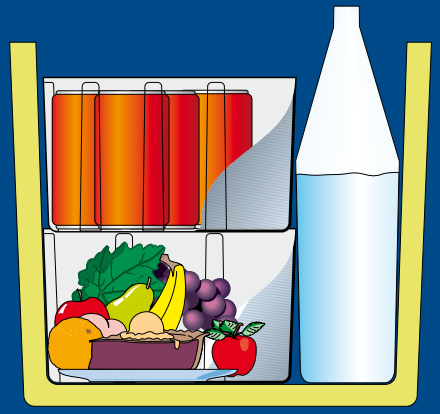
PASSIVE COOLING AT THE BEACH OR IN THE CITY

Looking for a lightweight and durable companion to take along for a quick picnic at the beach or the nearest park? Passive coolers from MOBICOOL are more than happy to tag along and can be filled to the brim with goodies. Our new box-in-box concept, available on our U26/U26S models, is especially good at protecting sensitive refrigerated items. To protect them from damage, items like these are stored in two plastic inserts, one on top of the other. And there's still enough "side room" left over for two large beverage bottles.

These coolers are not just for sport and leisure enthusiasts: the stylish insulated bags of the Sail-series also make a striking impression when you're shopping or at the office. Efficient fully insulated design, separate outside pockets, adjustable carrying straps or lanyards, four sizes and four powerful colours: each so delightful, you'd just love to have all four!



View from the side: The sensitive foods are protected from damage and still easy to reach
